

KARUNAKAR KOMARTHI

BACKEND DEVELOPER

Kakinada (AP), India | karunakarkomarthi@gmail.com | +91 83096 03397 |  Github

SUMMARY

“Computer Science Engineering student (AI & ML) with hands-on experience in Python, JavaScript, Node.js, and PostgreSQL. Currently contributing as a Backend Developer at a startup, gaining real-world project experience. Passionate about building efficient applications and eager to grow as a backend developer.”

TECHNICAL SKILLS

- Programming: Java Script | Python
- Databases: PostgreSQL | PgAdmin
- Tools : Docker | npm | Postman
- Editor: Visual Studio Code
- Web: HTML | CSS
- Backend : Node.js | Express.js
- Source & Version Control: Git | GitHub

EXPERIENCE

FLIKKO TECHNOLOGIES

June 2025 - Present

- Contributing to the development of a Payroll Management System for employee salary and attendance management.
- Designed and implemented the PostgreSQL database schema, ensuring optimized structure for payroll operations.
- Collaborated with the team to integrate backend services with the application frontend.
- Gained practical exposure to real-world software development, version control (Git), and debugging.

PROJECTS

Payroll Management System

- Designed and developed the PostgreSQL database schema using pgAdmin for salary and attendance management.
- Supported backend development with JavaScript (Node.js) and containerized the project using Docker for easier deployment.

Meat Delivery App

- Developed a full-stack web application to connect buyers with local meat retailers, enabling fast and location-based delivery.
- Built the frontend using HTML, CSS, and JavaScript, and designed the backend database in PostgreSQL (pgAdmin).
- Containerized the application with Docker for efficient deployment and scalability.

EDUCATION

PRAGATI ENGINEERING COLLEGE

2022-2026

Bachelor Of Technology in (CSE– AI & ML)
Current CGPA: (7.2/10)

Surampalem,
India
